History: The commercialization of today's Liburdi Industries wines have a long history. It was started by founder's great-grandfather and hand down to the grandfather and to the father using simple tools and organic processes. The same love and passion is employed in today processes. The wine have their original roots in 1860. The grapes are carefully selected and collected by hands. The company is located in the farmhouse where all it started back in 1860.
